

Introduction

Welcome to the HI-Y family of programs where youth build **leadership, character and service by creating better futures for all.**

Participation and registration materials are in this Advisor Kit.

HI-Y brings local youth together to improve their schools and communities and offers *away from home* experiences with other young people. These opportunities open windows on the world as youth gain greater perspectives on their own talents, how their communities, states and world work, and how to better use their gifts to shape the future.

HI-Y builds motivated, prepared, responsible and active citizens who take action to renew family, school, organizational and community life across our nation.

HI-Y programs exist because of the enthusiasm and work of participants and volunteers!

Everyone's efforts make differences for good and are appreciated!
